Post Task Questionnaire

Instructions: Thank you for your cooperation with this study, which aims to evaluate the User Interface of the application/system and, try to improve it following the Usability criteria.

Your collaboration is important for the success of this evaluation, so we ask you to complete this questionnaire, the data of which will be used in total anonymity for scientific purposes only.

reflects your opinion regarding its usage. If you believe that these quantifications are not applicable, choose NA. I think that I would like to use this system frequently. I found the system unnecessarily complex. I thought the system was easy to use. Totally agree Totally agree Totally agree Totally agree Totally agree Totally agree NA I think that I would need the support of a technical person to be able to use this system. I found the various functions in this system were well integrated. I thought there was too much inconsistency in this system. I would imagine that most people would learn to use this system very quickly. I found the system very cumbersome to use. I felt very confident using the system.
