Observer's Guide
"Usability Evaluation of Web-based Application: Key Vault Games"
Coordinator: Guilherme Santos, João Gaspar, Nuno Carvalho

STEP	ACTION	COMPLETED?
1	Introduce the main aspects of what will be performed, to the participant Mention that the application is under evaluation not the participant.	◯
2	Give the Informed Consent to the participant and answer any question. Only proceed after the informed consent has been signed https://github.com/sonic28g/IHC_Project/blob/main/Consent%20and%20release.pdf	◯
3	Download the web application prototype from GitHub. https://github.com/sonic28g/IHC_Project Run the server (server.py).	◯
4	Let the participant freely explore the application (you do the same) http://127.0.0.1:5000	◯
5	Direct the participant to the list of tasks. https://github.com/sonic28g/IHC_Project/blob/main/Tasks_KeyVaultGames.pdf	◯
6	Get ready with your observer script. https://uapt33090-my.sharepoint.com/:x:/g/personal/j_gaspar_ua_pt/EZjyckiRpH1IjJOJRGnAckoBAJyNp0cqc1L-qG1ky8PpBw?e=aBfMi9 The participant starts doing the tasks and you take notes on the observer form and only interfere if the participant asks for help.	◯
7	After the participant finishes the tasks, open the questionnaire, and fill it in with the participant, discussing your different points of view regarding each item. https://forms.gle/TMqoqsJAWsq76AzC7	◯
